Synergistic Teaming

A program that meets today's challenges!

- Current economic times place great demands on the need to reduce project costs and impacts – “*Synergistic Teaming* is an innovative program that can accomplish these goals”
- It incorporates a systematic life of the project program focusing on synergizing the team relationships of the owner, contractor and all business associates
- The program facilitates relationships that build trust, allowing team members to concentrate their creative efforts on the project work

Synergistic Teaming - Saving Time, Money and the Environment

What is Synergistic Teaming?

- *Synergistic Teaming* - an integrated way of doing business that saves project money, increases opportunity for early completion and mitigates legal disputes
- Hear testimony from an Owner, Contractor, Construction Manager and the developers of Synergistic Teaming
- Learn how this program offers an innovative and proven method of managing construction projects for greater success
- The program features a large and small project to demonstrate how it is effective for any size project

ST - Saving Time, Money and the Environment

The Integrated "Life of the Project" Elements

- A "Project Advocacy Approach" in building strong team relations
- "Early Intervention" which identifies and solves project conflicts before construction starts
- An "Early Issue Resolution Process" which quickly identifies and manages risk to reduce claims
- The introduction of a neutral "Project Advocate" component that provides strong and expedited third party mentoring and mediation

Synergistic Teaming - Saving Time, Money and the Environment

Our Presenters are Believers

- Six presenters have volunteered their time to tell their story supporting *Synergistic Teaming* as the way that Public and Private projects should be managed.
- These are challenging times requiring new ways of doing business that will improve the outcome of our projects.
- Our team provides education and assistance on how your organization can manage this process. A process that will save time, money and eliminate legal action.
- Come to our session and see for yourself!

Synergistic Teaming - Saving Time, Money and the Environment
