

Public Fleet Management Workshop

Cost: Members: \$550.00

Non Members: \$650.00

2 Day Workshop for Public Fleet Managers

The work life of a public fleet manager is rewarding, yet extremely challenging. APWA's Public Fleet Management Workshop offers a complete overview of what it takes to manage today's complex public fleet operations. Learn how to be a better fleet manager by:

- Integrating business planning principles into every facet of your operation
- Communicating more effectively with both customers and employees
- Identifying and selecting information systems to support your budgeting and maintenance activities
- Implementing best practices for budgeting, purchasing, acquisition, replacement and disposal
- Establishing policies for vehicle usage; fuel consumption; emissions; and parts and supplies management
- Complying with complex facility and safety management requirements

Earn CEUs and PDHS from the best instructors in the fleet industry!
