

First open the editor for the item

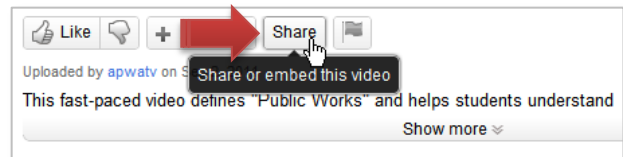

Find your location and type **HERE**.
 Select the **Source** button

Press **Control+F** and search for **HERE**.
This will take you to where you wish to make the change.

Go to YouTube and find your video.
 Select **Share**

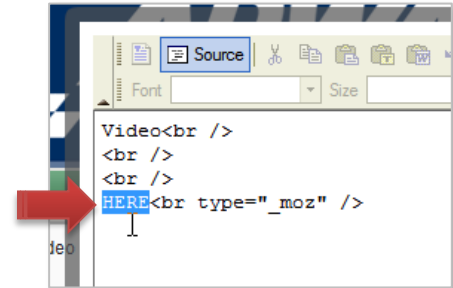

Select **Embed**

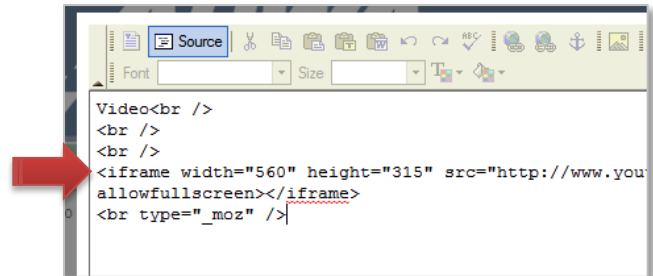

Copy the code in the box.
Normally it is selected by default.

Return to your chapter page
Select the word **HERE**

Replace **HERE** with the YouTube code.

Click on **Save**

Click on **Source**
Give it a second to load

You should now see the video on the page.

Click **Save**, then **Close**.
Give the video a try.
